

BUSINESS INTELLIGENCE JUMPSTART

Bring Your Data to Life and Empower All Users

Nearly all employees in the modern enterprise can benefit from access to timely data to improve insights and decision making, but most organizations struggle to achieve the balance of self-service, managed data access and reporting capabilities. The Business Intelligence Jumpstart is the first step in implementing a successful self service business intelligence program.

Why It Matters

3Cloud can help you accelerate the adoption of Microsoft Power BI and optimize time to value on your investment with our *Modern Data Platform Jumpstart* solution.

-  **Enable Users at All Levels in the Organization**
IT organizations can reduce the amount of time spent managing reporting needs by driving a data culture and balancing self-service analytics with enterprise-managed reporting. Deliver more cost effective and robust business intelligence solutions on Power BI while increasing overall security and compliance through managed processes.
-  **Speed and Agility**
Drive user satisfaction and a consistent experience through a modern platform using Microsoft Power BI and Azure. Expert deployment enables the business to spend less time wrangling data and more time analyzing information, speeding time to insights.
-  **Actionable Insight**
Modern Business Intelligence Jumpstart enables your analysts and savvy business users to take BI beyond traditional slice-and-dice with new machine learning and AI capabilities within Microsoft Azure and Power BI.

Are you flying blind and making decisions without access to data?

Do all business users have access to data?

How It Works

Get the most out of your Power BI investment. 3Cloud's *Modern Business Intelligence Jumpstart* is built to accelerate the adoption of Power BI across the enterprise while serving both IT users for monitoring and business users with self service. 3Cloud will drive adoption across the enterprise, implementing best practices for governance and deployment that sets you up for lasting success.

Engagement Deliverables

Azure experts from 3Cloud will facilitate workshops with your team to outline, plan, and provide best in class deliverables designed to effectively guide your modern business intelligence from the beginning. On average, the jumpstart engagement is four to six weeks.

- Power BI health check assessment
- Power BI governance and security documentation
- Lighthouse solution including themes and visualization standards
- Data ingestion and modeling patterns
- Monitoring utility to Power BI assets and users
- Admin and power user training

The Modern Business Intelligence Jumpstart leverages the following powerful Azure Services:

- ✓ Azure Synapse Analytics
- ✓ Power BI

Why 3Cloud

3Cloud is your one accountable partner to deliver Azure infrastructure, data and analytics, and applications with the fastest time to value from our experience, tools and accelerators. 3Cloud is the largest pure-play Azure partner in the ecosystem with unequalled expertise in Azure. We have hundreds of Azure experts, including MVPs and Fast Track Solution Architects, with thousands of hours implementing cutting edge solutions with Microsoft's most advanced technology.
