3Cloud

MODERN BUSINESS INTELLIGENCE JUMPSTART

Bring Your Data to Life & Empower All Users

Access to timely data is crucial for making informed decisions. Many organizations struggle to provide everyone with the data they need while maintaining company or department-level governance and reliable reporting. Our Modern Business Intelligence (BI) Jumpstart solution is designed to help your organization achieve this balance.

Why It Matters

3Cloud can help accelerate your adoption of Microsoft Power BI and optimize time to value on your investment with our Modern BI Jumpstart solution.

Enable Users at All Levels
Make better decisions with data by leveraging our guidance and best practices, helping your team thrive while ensuring users can access the data they need without compromising crucial reports that others depend on.

Speed & Agility
Drive user satisfaction and ensure a consistent experience through a modern platform using Microsoft Power BI and Azure. Expert deployment enables the business to spend less time wrangling data and more time analyzing information, accelerating time to insight.

Actionable Insight
Our solution enables your analysts and savvy users to take BI beyond traditional slice-and-dice with new machine learning and AI capabilities within Microsoft Azure and Power BI.

Are you flying blind & making decisions without access to data?

Do all users have access to data?

How It Works

Get the most out of your Power BI investment. 3Cloud's Modern BI Jumpstart is built to accelerate Power BI adoption across your organization by empowering IT with governance, security and monitoring best practices, while enabling business users through guided self-service and scalable deployment patterns. 3Cloud will drive adoption across your enterprise, implementing best practices for governance and deployment that sets you up for lasting success.

Engagement Deliverables

Azure experts from 3Cloud will facilitate workshops with your team to outline, plan and provide best in class deliverables designed to effectively guide your business intelligence from the beginning. On average, a jumpstart engagement lasts three to eight weeks.

- Power BI health check assessment
- Power BI governance & security
- Lighthouse solution (plus themes & visualization standards)
- Data ingestion & modeling patterns
- Monitoring utility to Power BI assets & users
- Power BI deployment guidance

Our Modern BI Jumpstart leverages these powerful Azure Services:

Microsoft Power BI

Microsoft Fabric

Your next Azure engagement may be eligible for Microsoft funding

Accelerate Your Azure Journey with 3Cloud

3Cloud is the premier pure-play Azure partner in the ecosystem with unparalleled expertise in all things Azure. We specialize in delivering top-tier Azure infrastructure, cutting-edge AI, robust data & analytics and ground-breaking app development. Leveraging our extensive experience, advanced tools and customized accelerators, we ensure the quickest time to value for your Azure-based projects.
