

# Choosing the right solution

## Find the best solution for your hybrid and multi-cloud data estate

### Run Azure data services across on-premises, multi-cloud and edge

Get Azure innovation, cloud benefits and a flexible cloud billing model across your data estate with Azure App-enabled data services

Support all connectivity modes

Always current

As-a-Service

Elastic scale

Unified management

## Any hardware, any Kubernetes

### Modernize in place and build new apps

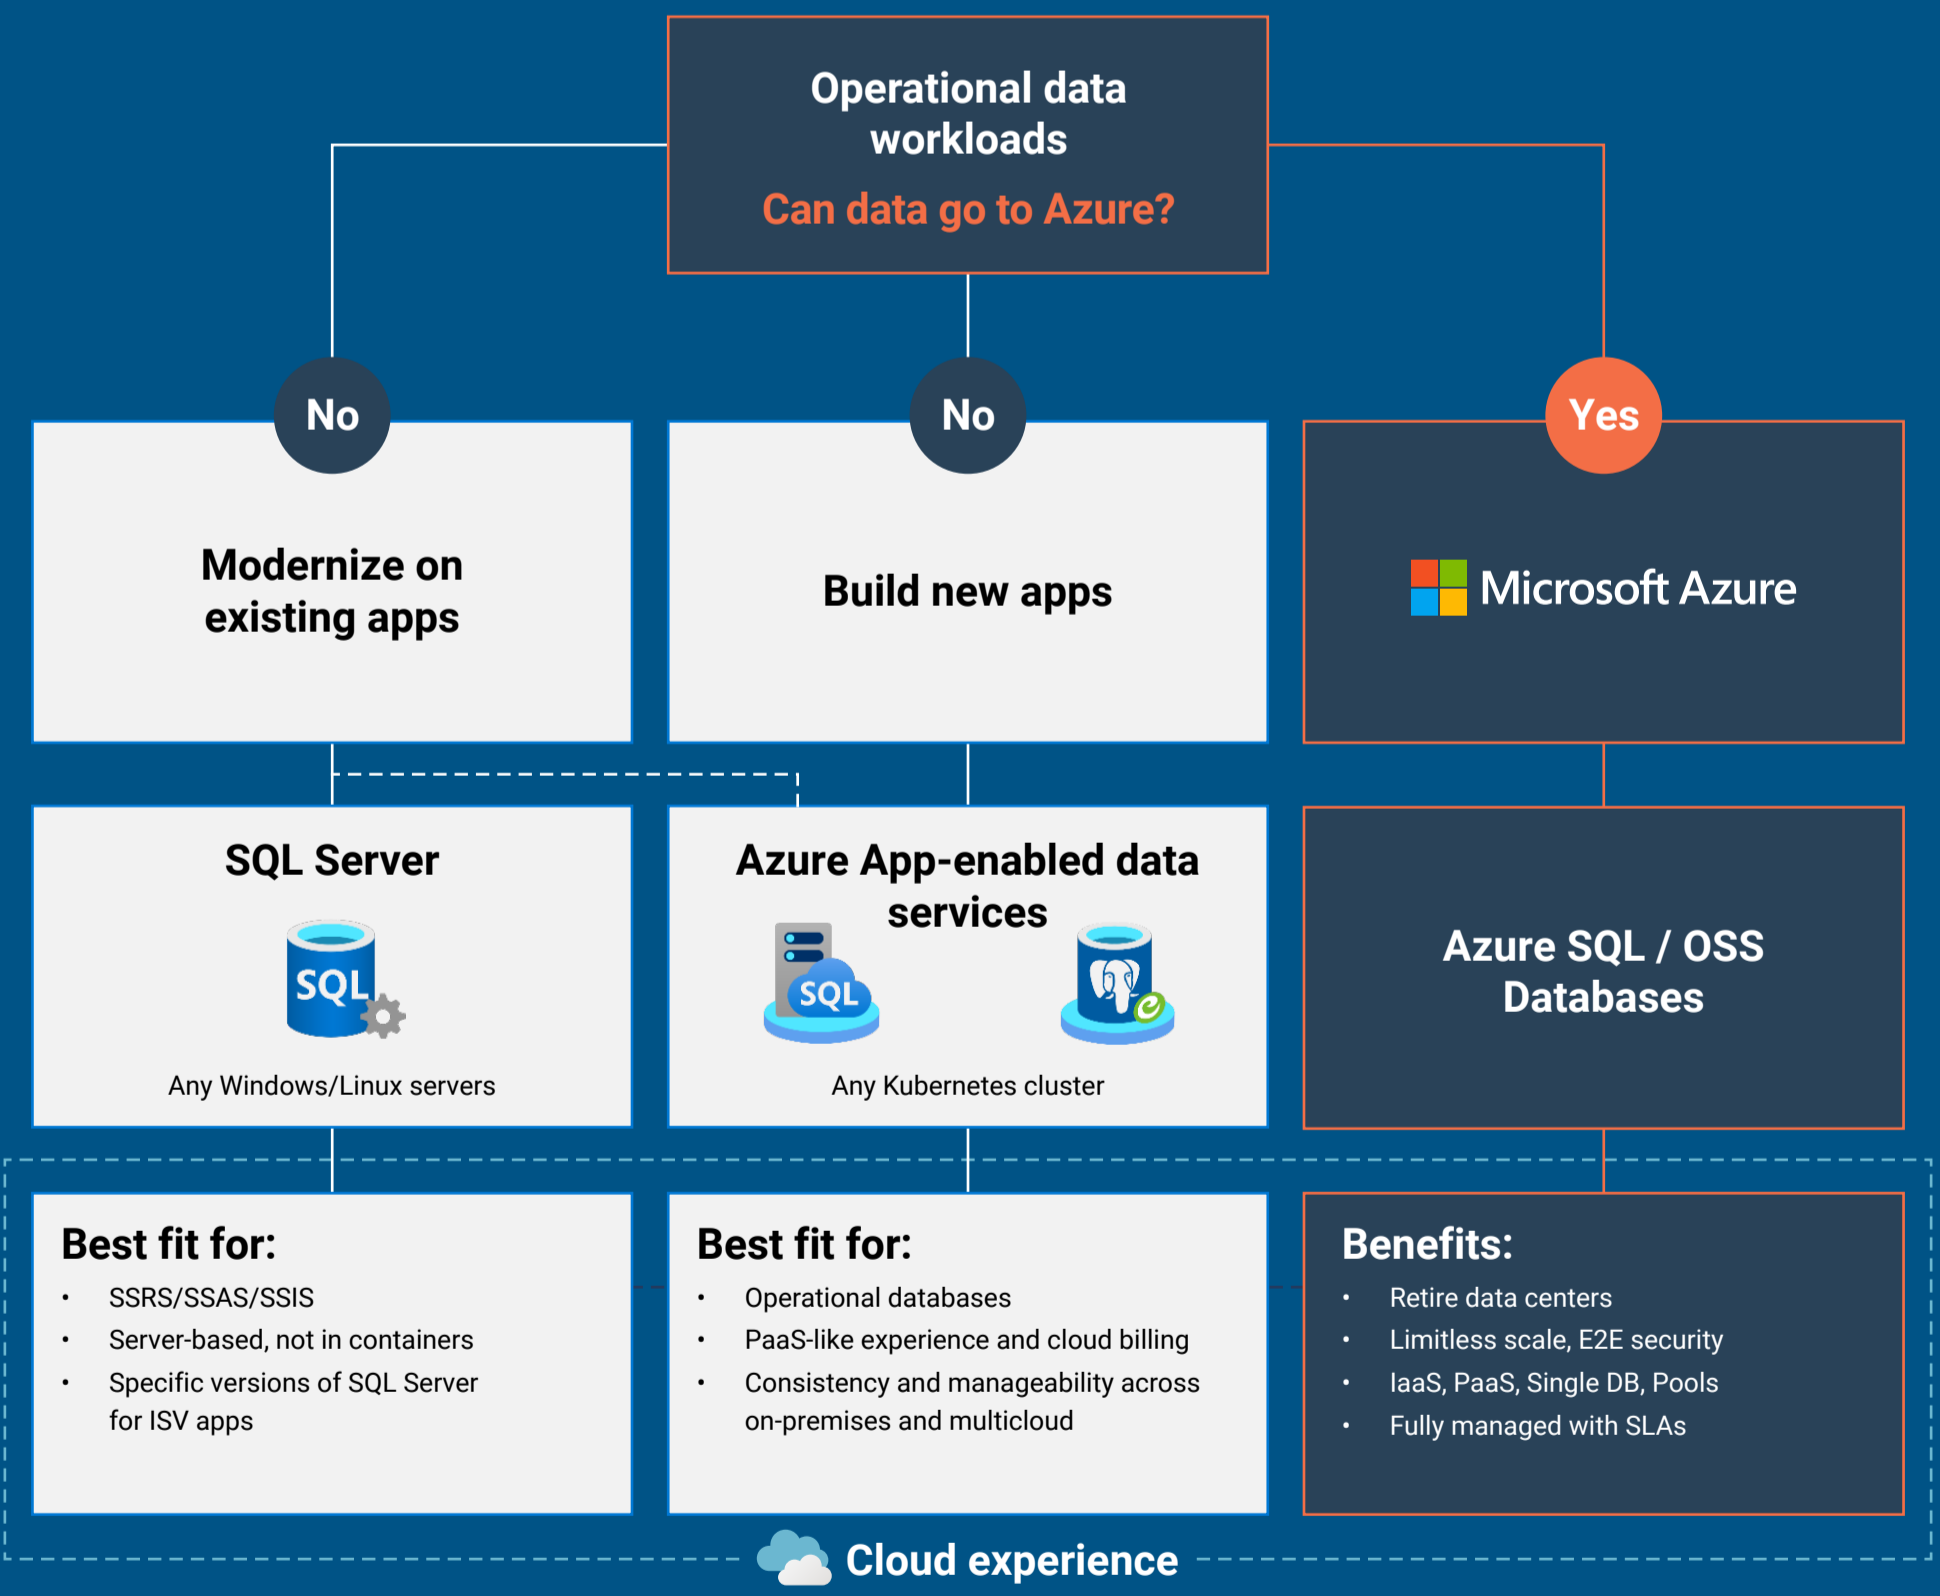

Using Azure Arc-enabled SQL Managed Instance and PostgreSQL Hyperscale

Not provided by Microsoft  Traditional Licensing  Cloud Billing

Built-in capabilities	Deployment model		Customer infrastructure	Azure
	SQL Server / PostgreSQL	Azure App enabled-data services	SQL Server / PostgreSQL	Azure PaaS databases
Database security features				
Elastic / "Limitless" scalability		Limited by the capacity of customer infrastructure		
Automatic HA/DR		Customer responsible for underlying HW/K8s availability		
Auto upgrade, patching				
Auto backup-restore				
Monitoring				
Compliance certifications	Customer responsible for compliance certification	Customer responsible for compliance certification		90+ certifications
Data sovereignty				Azure regions not available in all countries yet
Customer control				Pre-defined HW options No control over HW/OS
Fully managed by Microsoft	Customer-managed	Customer-managed using software provided by Microsoft		
Guaranteed availability SLA	Customer-managed	Customer-managed using software provided by Microsoft		

### Find the right path for your data

Azure App-enabled data services gives you more options for your data workloads

### Better cost efficiency

Cost efficiency from automation and better resource use

Not provided by Microsoft  Traditional Licensing  Cloud Billing

Traditional SQL Server	Azure App-enabled data services	Azure PaaS data services
Limited Azure management services	Azure management services	Azure management services
Database License	Database License	Database License
Database manageability	Database manageability	Database manageability
Not applicable	Azure app (no cost)	Azure control plane (no cost)
Customer provided infrastructure	Customer provided infrastructure	Azure infrastructure
