

MANAGED SERVICES

Expert support for your Azure environment

Your time should be spent looking for ways to grow and support your business, not managing cloud technology. 3Cloud Managed Services can help. Born in the cloud and 100% focused on Microsoft Azure, 3Cloud Managed Services empowers clients to focus on their business while we proactively ensure a stable, secure and continuously improving Azure cloud environment.

Our Services

From infrastructure to applications to data, we have comprehensive offerings to meet your needs. As one of an elite group of Microsoft partners to achieve the Azure Expert Managed Services Provider (MSP) designation, we are well-equipped to not only manage but enhance your Azure experience. Whether you need a partner to completely manage your Azure services or supplement your existing staff, 3Cloud can be your trusted Managed Services provider.

Streamline Operations

We monitor with pinpoint focus and then act, both reactively and proactively, with expert knowledge and experience.

Enable Growth

We empower governance with best-practice guidance and service delivery supported by regular and bespoke reporting capabilities.

Evolve Seamlessly

With strategic account management, our dedicated teams prioritize client success and ensure you maximize your savings potential.

64%

of growing organizations are using some form of managed services to help enable their business.

Cloud Spend Management

With cloud spend management, we guide our clients in implementing practices and strategies to control and optimize their spending on cloud computing services. Cloud spend management involves monitoring, analyzing and controlling cloud-related expenses to ensure they align with budgetary and operational goals. Key components of cloud spend management include cost monitoring, allocation and optimization along with resource tagging, budgeting, alerts and automation for resource scaling. Effective cloud spend management is an ongoing process, as cloud environments are dynamic and usage patterns can change.

Managed Data

We remove the burden of managing data, reduce disruptions, enhance the data platform and empower your organization to focus on what matters, your business. 3Cloud's Managed Data team provides support of your data and analytics solutions and drives ongoing enhancements to the platform. Whether you need assistance with developing Power BI reports, managing ETLs and your Data Warehouse Platform or need Database Administration (DBA) to manage SQL, 3Cloud has the team to manage and drive improvements.

Managed Platform

Attain smarter, more flexible operations. Discover new ways of connecting with customers and creating business value by streamlining your critical IT processes and simplifying management of key business applications. 3Cloud can help you efficiently operate cloud workloads and navigate the complexities of scaled cloud operations, while managing your costs. Our services have built-in constructs to address governance across finance, technical and 24x7 operational requirements, along with security and regulatory compliance needs.

“By moving to 3Cloud Managed Support (CSP) and then 3Cloud Managed Platform, we were able to optimize our Azure spend. 3Cloud helps us take advantage of Azure pricing efficiencies while providing excellent management and support for our environment.”

- Lori Brewer, CEO, LBA WARE

Why 3Cloud

3Cloud is your one accountable partner to deliver Azure infrastructure, data and analytics, and application development with the fastest time to value from our experience, tools and accelerators. 3Cloud is the largest pure-play Azure partner in the ecosystem with unequalled expertise in Azure. We have hundreds of Azure experts, including MVPs and Fast Track Solution Architects, with thousands of hours implementing cutting edge solutions with Microsoft's most advanced technology.
