

Achieve more with Azure Adapt to changing markets to emerge stronger

The shifting economy has made it essential to balance savings with investments in innovation. By migrating some of your workloads to the cloud, you can optimize cash flow while increasing operational effectiveness.

Finance Leaders everywhere are grappling with changing dynamics in the market

Inflation

8.2% YoY change in CPI in September 2022, fastest pace since 1982

Price spikes

3rd party vendor prices rising due to industry consolidation

Idle servers

Average 18-40% of servers sit idle on prem

Energy market volatility

High energy costs hitting Europe impacting margins

Labor challenges

Talent shortage and increased labor costs

Shift the status quo and gain flexibility to shape your future

Achieve more when you securely migrate and modernize

Achieve efficiency by optimizing cash flow

Maximize value by increasing operational effectiveness

Embrace technology to differentiate

Remove capital infrastructure costs

Migrate CapEx to OpEx to lower financial risk

65%

Save up to 65% on select compute services with Azure Savings Plan for Compute¹

Infuse AI into cloud apps to drive innovation

Shorten timelines from years to days

40%

Up to 40% lower costs when you run Windows & SQL Server workloads on Azure with built-in security²

Upskill your workforce

Prioritize developing new applications, not managing infrastructure

50%

Increase the speed of secure app development by 50% with Azure PaaS³

Lower energy costs and carbon footprint

Power-efficient sustainable datacenters to meet your sustainability goals

206%

Potential 3-year ROI using Azure to manage hybrid & multi-cloud security and governance⁴

61%

Empower faster decision making and growth

Average revenue increase from data transformations⁵

The Business Value of Migrating and Modernizing with Azure, sponsored by Microsoft Azure, #US49665112 Published: 9/24/2022

Save big on Azure with the Azure Hybrid Benefit by leveraging your existing on-premises licensing investment

AWS is

5x

more expensive than Azure for Windows Server and SQL Server⁶

Save up to

55%

over standard pay-as-you-go rate for Azure SQL Database⁶

Save up to

40%

over standard pay-as-you-go rate for Windows Server⁶

We achieved a 15-20 % benefit on the annual spend as a result of housekeeping. No one realized that the fruit of that was that big.
