3Cloud

Microsoft Azure
Purpose-built for your entire IT estate

3Cloud's Azure-based solutions are designed for your workloads, providing unparalleled value, strategic partnerships, and native integrations to maximize return on investment (ROI) and performance when migrating workloads to the cloud or hybrid environments.

ROI

Windows Server and SQL Server run best on Azure

Azure provides the most value for your Windows Server and SQL Server workloads with unique capabilities that help you save time and money while reducing complexity.

Up to **406%**
three-year ROI when modernizing SQL Server workloads to Azure SQL MI. [1]

80-85%
cost savings compared to standard Windows Server pay-as-you-go rates. [2]

Linux and PostgreSQL workloads preferred on Azure

Azure provides a trusted infrastructure and data platform to build, deploy and run AI-ready applications on the Linux distribution of your choice. Flexible licensing options let you pay on your terms.

Up to **192%**
three-year ROI with RHEL on Azure. [2]

75%
of surveyed organizations said migrating to the cloud reduced the barriers to enabling AI/machine learning.
